- After a case is created for you (the customer), you can simply reply to any email that you receive from the UW Service Center Agent and your email will append to the case automatically

The screenshot shows the top portion of an email client window. The 'To' field contains the email address [imp\\_wiscit@doit.wisc.edu](mailto:imp_wiscit@doit.wisc.edu). A teal arrow points from this address to the text 'Reply address (this is correct)'. The 'Subject' field contains the text 'RE: Incident 1017457'. A second teal arrow points from this subject line to the text 'Please refrain from changing the Subject'. The interface also shows a 'From' field with 'tmattes@uwsa.edu', 'Cc...' and 'Bcc...' fields, and a 'Send' button on the left.

Hello,

Incident 1017457

# New WiscIT System – Powered by Cherwell

- What to include in your email and web form request submissions to UWSC tier two support (Affinity Groups)
  - **Employee ID,**
  - **Employee Classification**
  - **Employee Record Number**
  - **Employee Name**
  - **Pay Cycle** affected (4A, 4M, etc.)
  - First and Last Name of the requestor: This is especially helpful when sending email from a generic basket, ie: [payroll@example.edu](mailto:payroll@example.edu) or [hr@example.edu](mailto:hr@example.edu)
- Support Center expectations for case creation
  - UWSC Support staff will reply to your email requests with a case number reference within 4 business hours of your initial email
  - When calling UWSC Support, agents create your case and provide the case number immediately
  - When using the [web form](#), a WiscIT case is automatically created upon the web form submission and an email is automatically sent to your email address including the case number for your reference

# New WiscIT System – Powered by Cherwell

- Notes

- You can attach screen shots to your messages and we will be able to see them in WiscIT. This applies to your responses to the agent, as well.
- When you reply to an email from a UW Service Center agent, they will get a notification via email and it will show an Unread item in their Dashboard.
- Reminder: please contact your Affinity Group with questions rather than contacting the Tier 3 functional teams directly. We're tracking trends and directing technical and training resources to problem areas. Tracking WiscITs allows us to improve service to you – our customers!
