

Corrected 1095-C Forms

The IRS requires employers to issue 1095-C forms to employees that were considered “full-time” for all or some months in 2020 (as defined by the Affordable Care Act)

Due to an administrative error on the original forms, employees will be issued a **corrected** 1095-C form

Why are corrected 1095-C forms necessary?

Most forms issued mid-February had an incorrect amount for the lowest-cost self-only employee contribution to health insurance. **\$30** was reflected on the forms instead of **\$31**
